

A versatile rotary saw blade with cutting speed like no other!

The **VentMaster Diamond** multi-use blade is the perfect cutoff saw blade for Fire Rescue agencies, FEMA and USAR teams who must have a single cutting blade to handle multiple tasks.

The **VentMaster Diamond Blade** will cut through almost any material:

| | |
|-----------------|--------------------------------------|
| Concrete | Precast, reinforced, wet or dry cuts |
| Steel | Doors, locks and auto bodies |
| Iron | Pipes and security bars |
| Brick | Hard, medium and soft |
| Block | Concrete and stone |

Will also cut Fiberglass, Aluminum, PVC, Wood, Glass...and more!

Features and Benefits of the VentMaster Diamond Blade

SPEED ■ VERSATILITY ■ LONGEVITY ■ AFFORDABILITY

- 14" blade cuts to 4.75" deep without depth reduction during the life of the blade.
- Premium grade diamonds ensure quicker cuts and a longer blade life.
- Vacuum-braided technology used to fuse diamonds to blade segments for strength and performance.
- Thicker, sturdier blade core for greater durability also has cooling holes and slots to prevent overheating.
- Fits any brand saw with 1" arbor (20mm bushing included).

Side by side tests with competitive blades proved the VentMaster Diamond Multi-Use Blade will cut more materials faster while maintaining a longer blade life.

| Part # | Blade Diameter | Fits VentMaster Cutoff Saw |
|-----------|----------------|----------------------------|
| TV406-073 | 12" | 375K, 396K, 3120K |
| TV406-074 | 14" | 375K, 396K, 3120K |
| TV406-075 | 16" | 396K, 3120K |
