

Another Great Year at FDIC 2004!

Tom Fox Receives the Tempest Technology Chairman's Award 2004.

Tom Fox, Tempest National Sales Manager was presented the **Chairman's Award** at FDIC in Indianapolis, Indiana on April 29, 2004. The Award is given once every three years and recognizes an individual who has contributed greatly to the long term growth and success of Tempest Technology Corporation. Dexter Coffman, CEO of Tempest proudly presented Tom Fox the first **Chairman's Award** in recognition of his contribution to the growth and success of Tempest over the last three years. The plaque presented to Tom commended his dedication, work ethic and commitment to growing the Tempest Dealer Network and expanding overall sales. Please join us in congratulating Tom on all of his hard work and success.

Second Quarter Product Spotlight

VentMaster Rescue Ventilation Saw

Product Spotlight for the Second Quarter Spiff Promotion.

April 1 - June 30, 2004

The dealer sales person selling the most **VentMaster Rescue Ventilation Saws** within that time frame will receive a **\$250.00** cash reward.

VentMaster Product Line Expands at FDIC 2004

KIS-360 Adjustable Depth Gauge

The KIS-360 is the newest addition to the VentMaster line of innovative cutting tools for fire and rescue ventilation. Our adjustable depth gauge allows for precise control of the cutting depth with no saw blade overlap. Simply adjust the depth gauge, start the saw and cut. The KIS-360 is only available from Tempest.

VentMaster Chain Saw Upgrade Kits

The VentMaster Chain Saw Upgrade kit includes everything you will need to turn your ordinary chain saw into an effective tool for fire and rescue ventilation. Our kits include the patented KIS-40 Depth Gauge, Raptor Carbide Tipped Chain, Titanium Roller Nose Guide Bar and Sprocket for proper attachment to your chain saw.

VentMaster 375K Cutoff Saw

The 375K Cutoff Saw incorporates features found on no other cutoff saw on the market today. This lightweight unit provides maximum power and versatility for tough cutting jobs. The patented "Centrifugal Force" Active Filtration System mechanically filters 97% of airborne contaminants which prevents premature clogging. Consult your Tempest Sales Representative today for additional information.
