Direct Drive Yourself to More Cash!

Third Quarter Product Spotlight

Kick start your summer with the Tempest Direct-Drive 18" Power Blower! The spotlight of our Third Quarter Spiff Promotion, the DD 18" Honda Power Blower, can drive you to more cash. The promotion runs from **July 1 - September 30, 2004**. The dealer sales person selling the most **DD 18-H-5.5** blowers within that time frame will receive a **\$250.00** cash reward. Only Tempest part number 700-024 applies.

Tempest Direct-Drive Power Blowers are designed to provide the best value for fire and industrial applications. The direct-drive design allows for a smaller package and a lighter weight unit. Vibration problems are virtually eliminated with our precisely balanced and engineered impellers combined with the vibration absorbing spring loaded rear "feet". With many engine options and sizes to choose from, Tempest Direct-Drive Power Blowers will meet all of your PPV needs.

July 1, 2004

Second Quarter Winner!

Congratulations to

Mike Kirchhoff with

Shipman's Fire
Equipment!

He is the winner of our

Second Quarter Spiff
Promotion.

Great Job Mike!

Key Features of Tempest Power Blowers

Key Selling Points to Remember

1. The Front KickStep pedal, new to Tempest Power Blowers, allows the operator to tilt the blower forward with one foot. This original design makes for effortless maneuvering of the blower and positioning a snap.

2. The Tempest Exhaust Extension is the ideal solution for reducing the amount of exhaust and CO introduced during PPV operations. The hose is 2" x 10" and is made of durable polyethylene that can withstand temperatures from -20 degrees C to +375 degrees C. Two hoses can be combined for up to 20' of extension. Visit the download library at www.tempest-edge.com for blower CO test reports.

3. The Winning Step patented foot-operated tilt mechanism features four back and one forward tilt positions. This unique design allows the operator to easily adjust the tilt of the blower and angle of the wind. Ideal for ventilation of basements, cellars and other PPV applications, the Winning Step is an exclusive feature you will find only on Tempest Power Blowers.
