How Old Is Your Blower?

Tempest is excited to announce the return of the **"Oldest Blower Contest"**! Once again we are calling on you to search for the oldest Tempest Powered Blower in use. We want you to search high and low, in every compartment, in every apparatus, in every city and township you call on in your territory to find the oldest Tempest Blower in use today. This contest will benefit the **First Due Fire Museum** in Hazelwood, MO. The Oldest Blower will be donated to the museum for display and use educating visitors on the history and use of PPV in fire attack and overhaul. The fire department owning the oldest blower will receive a brand new blower of comparable size and horsepower. What does the dealer salesperson who finds the oldest blower win? A **\$500.00** Cash prize will be awarded to the person responsible for locating the oldest blower. An old blower, a new blower and a cash prize make for a winning combination!

Rules

The winning blower must be a Tempest Powered Blower and in operable condition. A valid Tempest Serial Number must be provided to determine manufactured date of blower. Only a comparable Tempest Blower in size and engine make and horse power will be awarded. Cash prize will be paid directly to the dealer sales person responsible for location the winning blower. For questions or further details, please contact Customer Service at 800-346-2143 or response@tempest-edge.com

First Due Fire Museum

The First Due Fire Museum was the concept and dream child of three St. Louis County, Missouri Firefighters. Now fully functioning in Hazelwood, MO, the museums main function is promote fire safety and education through the use of interactive stations and equipment. Also included in the museum is a large display of firefighting memorabilia and collectables spanning over 100 years of firefighting.

The museum is staffed by local firefighters and currently has 70 volunteers giving time each month to promote fire safety and education. For more information on the First Due Fire Museum, visit www.firstduefiremuseum.com.
