

It's about firefighter safety....

Bring the Power to the Blower!

August 5, 2005

New! Generator Blower Packages

During Fire Rescue International later this week in Denver, Tempest will be introducing our new **Generator Blower Packages**. Tempest is pleased to announce that we have been selected by Honda to be a distributor of their entire line of portable generators. Beginning immediately you may purchase Honda generators along with blowers, saws and smoke machines from Tempest.

Generator Blower Packages

As an added benefit to the user, we have packaged our Variable Speed Blowers with the Super Quiet EU2000i series generator from Honda. This 2000 watt generator is powerful enough to operate any Tempest Variable speed blower; any size, any motor. Compact enough to fit in a compartment or trunk, the **Generator Blower Package** allows you to perform PPV, or ventilate, any where you need it. The light weight design of both units allows for easy transport from vehicle to emergency site. Plus the generator is capable of powering lights and other emergency equipment, along with the Tempest blower. For additional information come by and see us at IAFC, FRI 2005. We are located in booth number 3544. Won't be at the show? Contact Customer Service at 800-346-2143, or email at info@tempest-edge.com.

New! Tempest Telepike Pole

Exclusively from Tempest, the New **Telepike Pole** is the latest innovation in fire rescue ventilation. The unique telescoping design allows the pole to be adjusted from 34" to 9' with simple adjustment. Made of hard anodized aluminum, the 5.8 lb pole is easily transported hands free by hanging from air pack harnesses or strapping. The adjustable design and interchangeable heads cut down on wasted time having to go between emergency site and vehicle to obtain the right tool for the task at hand. The **Telepike** allows you to maneuver into tight spaces and reach higher areas by simply adjusting the length to suit your needs. The interchangeable heads allow you to switch from Pike Head, Trash Hook, Plaster Hook or New York style with simple quick adjustment. Compact and portable, the **Telepike** easily and conveniently stores in compartments where space is tight. For more information on the New **Tempest Telepike Pole**, contact Customer Service at 800-346-2143 or info@www.tempest-edge.com.

Oldest Blower Contest

The **Oldest Blower Contest** is still in effect, continuing until September 30, 2005, so there is still time to submit your entries. Remember, the winner of the contest will receive a **\$500.00 Cash** prize and the fire department possessing the oldest blower will receive a new Tempest Power blower of the same size and engine model. Remember, blowers must be a Tempest Power Blower in operable condition to qualify for the contest. For further details please contact Paley Peralez at paleyc@tempest-edge.com.
