The Holidays are drawing near, will you be ready?

Don't Forget the Generators!

November 23, 2005

Have you forgotten that Tempest now offers Honda Powered Generators? Perfect for powering our Single Speed and Variable Speed Blowers, the **EU2000i** series from Honda is compact and portable, giving you power where ever and when ever you need it.

Tempest also offers both the **EU1000i** and **EU2000i** on their own, or with a 500 or 700 watt light, giving you illumination on any job site.

Is the EU series not what you are looking for? Tempest also offers the complete line of Portable Generators from Honda. From the **Super Quiet, Deluxe, Industrial and Economy Series**, we

have the right unit to power your job. Contact Customer Service at 800-346-2143 or your Tempest Regional Sales Manager for a list of model numbers and pricing. For additional information on our Generator Blower packages, visit our website at www.tempest-edge.com.

Generators are a perfect way to increase your individual department sales. When calling on departments for ventilation or other loose equipment needs, be sure to ask them about their generator needs. Most departments carry them on their apparatus and all have a need for a generator or two somewhere within their loose equipment supply. You can easily increase your sales by adding generators to their order.

Tempest Delivers Blower to Porterville Fire Department

From left, Deputy Chief Loran C. Blas-dell, Assistant Chief Mario Garcia and Fire Chief Frank Guyton, all with the Porterville Fire Department, trade their old Tempest Blower for a new Direct Drive 21" Honda Blower.

On November 8, 2005 the Porterville Fire Department took delivery of their new Tempest Direct Drive Power Blower as a result of having the winning blower in the Tempest Oldest Blower Contest. The Porterville Fire Department produced a Tempest Blower dating from 1987, the same year Tempest was formed. In service for 18 years, the blower is being retired to the First Due Fire Museum in Hazelwood, Missouri.

That same day Eric Anderson, with L.N. Curtis & Sons, was presented with his \$500.00 Award for locating the blower. Eric is based in the Central Valley of California and was responsible for the location of the blower and its entry into the Oldest Blower Contest.

Curt Johnson, Tempest Western Regional Sales Manager presents winning dealer sales person, Eric Anderson from L.N. Curtis & Sons with his \$500.00 award.

Our congratulations to both the Porterville Fire Department and Eric Anderson. May you both enjoy your awards!
