

## **Product Certification/Approval Information**

### **Legend**

UL = Underwriter Laboratory  
CSA = Canadian Standards Association  
CARB = California Air Resource Board  
EPA = Environmental Protection Agency

### **Electric Power Blowers**

Tempest Power Blowers are manufactured with electric components that are UL approved or certified by CSA International.

#### **Variable Speed Electric**

VSX Drive – This drive has been tested by UL and is an approved component in compliance with UL508 safety standard.

VSX Electric Motor – This motor has been tested by UL and is an approved component in compliance with UL507 safety standard, file # E47479.

VSM Drive – This drive has been certified to US standards by CSA, Class 3211-86 file # 098437\_0\_000

VSM Electric Motors – These motors have been tested by UL and are an approved component in compliance with UL507 safety standard, file # E219656.

#### **Standard Electric**

Standard single speed Electric Power Blowers are manufactured with UL and CSA International approval, electric motors recognized component UL file # E49747, CSA file # LR2025.

“Explosion Proof” single speed Electric Power Blowers are manufactured with UL and CSA International approval, electric motors recognized component UL file # E12044, CSA file # LR47504.

### **Gasoline Power Blowers**

Tempest Power Blowers are manufactured with gasoline engines that are EPA and CARB approved.

*Briggs & Stratton gasoline engines* – These engines are EPA and CARB approved.

*Honda gasoline engines* – These engines are EPA and CARB approved.

*Tecumseh gasoline engines* – These engines are EPA and CARB approved.

### **VentMaster Fire Rescue Saws**

Tempest VentMaster Fire Rescue Saws and Tempest VentMaster Cutoff Saws are manufactured with Husqvarna gasoline power heads that are EPA and CARB approved.

UL listing on Tempest VentMaster saws: Listed 54L1 – Listed in accordance with American National Safety Specifications for Gasoline Powered Chain Saws (ANSI B175.1-2000)
